CELEBRATING 10 YEARS

Organization: Saraswati Seva Foundation

Website: <http://www.saraswati-seva-foundation.org/>

Mission

Empower the BoP (Bottom of Pyramid) communities leveraging Skilling and Employment Generation amongst other tools

Context

SSF was founded in 2016 by Industry veterans. Beneficiaries include Children, Women, Youths and Farmers. Idea is to bring technology, global networks and policy infrastructure together to deliver change. Goals include empowering the under-privileged youth and children to ride on contemporary skills and get into sunrise/mature industries to build lives.

One of the missions of the organization is to empower youth through tackling the difficulties faced by ITI/Diploma students/graduates to upscale their skills and help them identify placement opportunities and track their alumni and their progress.

Challenge

The organization would like to use technology to help facilitate skilling-up, recruitment opportunity awareness and drives.

Technology Baseline

Currently the organization uses Google Sheet and Google Form to maintain information of graduates and other activities.
